First Annual Report of the Weare Volunteer Fire Department

The Weare Volunteer Fire Department was organized April 12, 1934. Its personnel is thirty-four men: the two head officers, namely, the Chief and Deputy Chief, necessarily residing in Weare Center; and each of the four subdivisions, Weare Center, North Weare, East Weare, and South Weare, furnishing a company of eight men. In addition, the department has the co-operation of five town fire wards appointed by the Board of Selectmen.

The department's equipment is stationed at different points of the town as follows:

Stationed at Weare Center: Fire truck with its main equipment being a 150-gallon-per-minute portable pump, together with 1850 feet of 1½ in. hose, 60 feet of 2 in. suction hose, Siamese connections, nozzles, etc.; a 135-gallon Booster tank and pump (driven by truck motor), together with 150 feet of ¾ in. hose; ladders, pike poles, shovels, other small tools, and a siren for alarm purposes.

Stationed at East Weare: Portable forest fire pump; 500 feet discharge hose; 20 feet suction hose; and accessories.

Stationed at South Weare: Same type of equipment as at East Weare.

Distributed throughout the town are twenty-seven soda and acid extinguishers; twelve knap-sack pumps, and eleven pump tanks.

During 1934 there were calls for a total number of seventeen fires: seven of them, chimney fires; five, building fires; and five, brush or grass fires.

As an unemployment relief measure, the State Forestry Department made appropriations to the town for the digging of water holes for fire protection. The appropriation allotted to Weare enabled the town to locate eight water holes as follows: One site each at Weare Center, Clinton Grove, Slab City, Sugar Hill, East Weare, South Weare, Dearbornville (pond), and South Weare (pond).

GERALD H. HIGHT,
Chief Fire Department.

Report of School Nurse

Weare, N. H.

Before submitting my annual report for the year 1933-1934 I wish to thank the superintendent, members of the school board, the teachers and the different organizations for their interest and kind cooperation in the health work of our schools, especially those who helped finance and make our dental clinic possible this fall.

REPORT OF THE SCHOOL EXAMINATIONS

Number of pupils examined at the beginning of the school year	265
Those found to have operative tonsils	13
Those who have received treatment	4
Defective vision	25
Vision corrected	14
Accompanied 1 to hospital for a skin disease.	
Accompanied 5 to a physician.	
Accompanied 2 to tubercular clinic.	
Five attended the goiter clinic in Manchester.	

The correction of physical defects has always been a source of concern to our school physicians and school nurses.

Many homes where the family income cannot be stretched to include extra attention to children aid has been given for remedial work on teeth, tonsils and eyes.

The Child Health Recovery Program was made possible

July first, through an allotment of Federal funds to the New Hampshire Relief Administration for the purpose of providing treatment for needy children suffering from these defects. Hot lunches were provided in many of the rural schools, also milk and cod liver oil.

It might be interesting to know that through the Relief and other sources this Union consisting of Goffstown Independent, Goffstown Town School District, New Boston, Bedford, Dunbarton and Weare, that 71 defective vision cases have been corrected, 57 have had their tonsils removed, 475 have received complete dental care through the seven dental clinics held since June, 1934.

At the Weare dental clinic in October, 102 received care, total number of dental operations, 264.

A typhoid clinic has been given in three of the towns since last report.

EDITH G. WALKER,
School Nurse.

Report of the Superintendent of Schools

To the Citizens of Weare:

The current year is my twelfth as superintendent of schools in this supervisory union. When I came the union consisted of the following districts: Goffstown Town, Goffstown Ind., Bedford, and New Boston. There were three towns and four school districts and so remained until two years ago.

The following table will indicate—regarding each district—the number of teachers, pupils, and buildings in which schools were carried on. The figures given hold generally for about the first five years.

District	Teachers	Pupils	Buildings
Goffstown Town	10	180	5
Goffstown Ind.	8	220	2
Bedford	9	175	8
New Boston	11	160	8
<hr/>			
Total	38	735	23

During the years from 1922 to 1933 the towns and districts remained the same. Forces at work everywhere, were bringing changes in the schools of the Union.

Bedford, in these years, moved with the tendency which led to the closing of one-room schools. As the table above

shows, there were nine buildings in use up to ten years ago—all but one were the usual one-room rural buildings. First a two-room building at the center which brought together pupils from two or three other buildings. Following that, in order to take care of the increasing school population at another section adjoining Manchester, another two-room building was erected. A few years later, a third building, a three-room, was erected near the Country Club. These three modern buildings eliminated all the old one-rooms and provided increased school advantages to all.

New Boston, which had eight buildings in use in 1922, has now but one. All of the school population of the town comes to the village. The building, after changes, and remodeling, provides amply and comfortably for all with modern conveniences. The chief advantage, however, is in the educational opportunity in providing in so far as is possible, equal privileges for all. There are three elementary groups, Primary grades, one to three—Intermediate, four to six, Junior High, grades seven to eight—and Senior High School.

In the Goffstown Town District, three one-room buildings were in use twelve years ago. Since that time, one has been closed in the East part of the town. Two one-room buildings are still in use, each having more than twenty pupils.

During the school years 1932-1933 and 1933-1934, it became necessary for the State Department of Education to re-group the various towns in the State in order to decrease the number of Unions. This meant that a number of the remaining ones had to be made larger. In this period of change, Bedford was taken from the Goffstown Union and annexed to that composed of Hudson, Merrimack, Litchfield, and Pelham.

In place of Bedford, Weare, which had previously been with Hopkinton, Henniker, and Dunbarton, was assigned to Union 19. This kept the number of towns and districts the same, three towns, and four districts; but increased the total number of teachers by eight, increased the number of buildings by seven; increased somewhat the number of pupils, increased by many miles the travel required.

The following year, 1933-1934, when further reorganization was imperative, Dunbarton was added to Union 19 increasing teachers by four and adding about 80 pupils and three buildings. At the same time Bow was assigned to this Union, adding seven teachers, five buildings, and about 150 pupils. So that during the current year the Union is made up of five towns and six school districts.

The table below, similar to one used previously, gives corresponding data for the Union as it is at present.

District	Teachers	Pupils	Buildings used
Goffstown Town	9	250	4
Goffstown Ind.	9	246	2
Bow	7	140	6
Dunbarton	4	79	3
New Boston	5	140	1
Weare	14	264	10
<hr/>			
Total	48	1119	26

Comparison of the Union in 1922 and as at present.

	1922-1923	1934-1935
Towns	3	5
Districts	4	6
Teachers	38	48
Pupils	735	1119
Buildings used	23	26

The demands upon a superintendent are continuous and varied; the major portion of his time, however, is given to the direct supervision of the work done in the schools. Included in this is the selection of teachers, general supervision of the work, and plan. This can be accomplished only by being where the work is being done—in the class-rooms. Observation may give rise to question or suggestion as to purpose or plan or method of material. Plans may be discussed in teacher's groups, but more often and more effectively by frequent personal conferences.

Each of the fifty superintendents in the state sends a report each month to the State Office, a report of "inspection and supervision." Their monthly summaries indicate that in this particular year the Union ranks among the few highest. The figures for the cities of Manchester, Nashua, and Concord are omitted in the following figures, but include the reports of all other forty-seven superintendents.

For the school year, since last September, and including January, 1935, the "calls" are as follows:

September	155—Ranking ninth
October	171—Ranking fourth
November	143—Ranking fifth
December	124—Ranking sixth
January	144—Ranking fifth

Total Calls 737—Ranking approximately sixth

The selection or purchase of books for all schools, the estimated amount of "supplies," (supplies including the materials used by pupils) ordering, distributing books and supplies to all schools, in the five towns requires considerable time. "Supplies" for the Union are usually combined in a "lump" amount, first to secure bids—and then the purchase, from one house in order to reduce transportation charges.

There are six meetings of School Boards each month, sometimes more, seldom less. There is considerable time required in meetings and securing data for reports and information for Boards and teachers.

In the Union now are three Senior New Hampshire schools, Goffstown, Weare and New Boston. New Boston and Weare provide agricultural courses along with the usual ones. Weare also is giving Home Economics for girls.

In last year's "Scholarship Day" competition, for scholastic honors among the graduating classes from High Schools in the state, the two highest places in the English tests came to two schools in this Union. Goffstown tied with Lancaster for first place. Second place, but one point lower, was taken by New Boston. There were seventeen high schools in this group competition.

This year brought an unusually large number of changes in the teaching force.

Mr. Philip Barton, a graduate of New Hampshire State University, having taught successfully for a few years at Colebrook, came to assume duties at the High School as Headmaster. He is teaching agriculture, chemistry, coaching basketball along with administrative duties.

Miss Helen Foss, a four-year graduate of Plymouth Normal, has charge of the English, French, and Music, in addition to other subjects and duties.

Miss Priscilla Garrett, a graduate of the State University, has charge of the girls' work in Home Economics and other subjects. The work in Home Economics now meets the State requirements necessary to receive Federal Aid.

Miss Florence Harris of Concord, normal graduate, with experience, teaches at Riverdale.

Miss Harriet Anderson of Goffstown, normal graduate with previous experience, is teacher at Clinton Grove.

Miss Gladys Miller of Manchester, a normal graduate with previous experience, teaches at North Weare.

Miss Louise Sayward of Manchester graduated from Keene last June, and teaches at Buxton.

The School Census in September showed a total enrollment including all schools of 264.

Some of the items regarding schools are indicated in the following table:

SCHOOL	Half days in session Enrollment		Average attendance	Per cent of attendance	Number of tardinesses	Visits by Superintendent	Visits by Board	Visits by School Nurse	Visits by others

Two ways in which help toward improvement of the Schools can be rendered by all parents concerned are these:

- (1) Help children to avoid any unnecessary absences and tardinesses.
- (2) By acquainting themselves with the teacher and school as it relates to their own child—visit the school—ask about the work—is it creditable—or careless—or excellently done—is the child interested. Every parent—and others too—hear stories about this or that—if true, some things should be changed—other things should not be tolerated—Are these reports true or just “childish stories?”—Parents sometimes ask—and properly—“Why didn’t you tell me before?” We do try to keep parents informed. Many times we may fail. But, in any case—and to be sure—visit your schools—and inform yourself first hand.

For the continued co-operation of the members of the School Board, and the teachers, again I express my appreciation.

Respectfully submitted,

J. BYRON TARNEY,
Superintendent of Schools.
